

Are You Living With Cerebral Palsy?

If so, you may be eligible to participate in a clinical study of an investigational medication. This medication is currently approved to improve walking in multiple sclerosis.

Study Criteria

- Be aged between 18 and 55
- Be able to walk and open and close both hands
- Does not have a history of seizures

- ▶ Study-related treatments will be provided at no cost.
- ▶ You do not need health insurance to participate.
- ▶ You will be compensated for time and travel.
