

# Dental Center

---

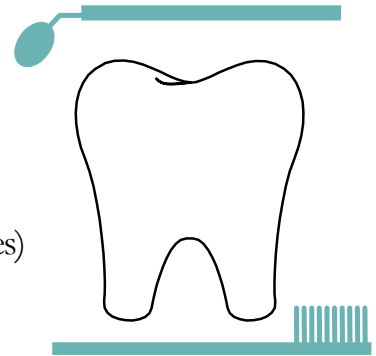

## Specialized Dental Care

- For physically, medically & developmentally disabled patients.
  - Training dental professionals to serve the needs of these patients.
  - Excellence in dental treatment for nearly 80 years.
- 

The mission of the Rancho Dental Center is to improve the function and to promote independence of persons with severe or chronic disabilities.

### What services are provided at the Rancho Dental Center?

- Preventative (Cleanings & Fluoride Treatment)
- Restorative (Fillings & Crowns)
- Oral and Maxillofacial Surgery (Extractions & minor procedures)
- Prosthodontics (Dentures & partial dentures)
- Maxillofacial Prosthodontics (Specialized Dentures & partial dentures)
- Endodontics (Root canal treatment)
- Periodontics (Gum treatment & surgery)
- Pediatric Dentistry (Children's dental care)

### Who can be helped by Rancho Dental Center?

- People who are unable to transfer to a dental chair from wheelchair or gurney.
- People who are unable to have dental care done in the regular clinic area due to their disability.

The Department of Dentistry staff at Rancho are expert in highly specialized dental treatment for people with severe disabilities. Oral health and specialized dental care are vital to good health.
